Programming workshops

I will provide new and fresh ideas that will help your staff look outside the box. In consultation with management staff I will design a workshop to fit your needs.

***Afterschool Programming**

No more free play, let's look at Choice based activities.

***Preschool/Daycare Programming**

Making the most out of every activity at any age.

***Environmental Programming**

What does your environment say about your program. What do you need in your space to be successful?

***Theme based programming**

No more apples in September look at theme based programming in a whole new way.

Staff /Child

Interactions

Every conversation and activity a child experience in your program has an impact on them. Make each and every interaction a positive one.

Discipline

Having trouble with discipline in your Centre. Learn strategies that not only help stop the behavior but also teach the children problem solving skills

Bullying

An interactive, preventive workshop to help staff see and respond to Bullying in a positive and proactive way.

Facts about the Facilitator

Alana Doucette BAAACYS,MSVU

Level # Certification

I have over 15 years experience in teaching planning and implementing programs for children and youth. My passion is programming and providing quality experiences to all children. I love developing programs and helping staff think outside he box.
